INFORMATION FOR AUTHORS

RADIODIAGNOSIS

Techniques/Subspecialties

Radiography

Thrombosis of mechanical heart valve prostheses: revisiting the role of fluoroscopy (Case report), 76
Improving radiographer highlighting of trauma films in the Accident and Emergency department with a short course of study—an evaluation, 608
A novel quality assurance method in a university teaching paediatric radiology department, 843
Radiography for midfacial trauma: is a single OM 15° radiograph as sensitive as OM 15° and OM 30° combined? (Short communication), 883
Adynamic ileus after Caesarean section mimicking intestinal obstruction: findings on abdominal radiographs, 951
The influence of different technique factors on image quality of lumbar spine radiographs as evaluated by established CEC image criteria, 1192
The usefulness of orbital lines in detecting blow-out fracture on plain radiography, 1265

Ultrasound

HyCoSy—as good as claimed? 133
Ultrasound diagnosis of oesophagostomiasis (Case report), 328
Congenital diaphragmatic herniation: antenatal detection and outcome, 360
The incidence and significance of testicular microlithiasis in a subfertile population, 494
Granularity of the carotid artery intima–medial layer: reproducibility of quantification by a computer-based program, 595
Acute appendicitis presenting with a testicular mass: ultrasound appearances (Case report), 780
Fluid collections detected by ultrasound following uncomplicated colorectal surgery (Short communication), 1098
Fatal haemorrhagic myocarditis secondary to cyclophosphamide therapy (Case report), 1112
Ultrasound features of the gall bladder in infants presenting with conjugated hyperbilirubinaemia, 1154

MRI

Intrathoracic extension of aggressive fibromatoses (Short communication), 66
Pancreatic serous cystadenoma associated with islet cell tumour (Case report), 83
Struma ovarii: MRI findings (Case report), 87
Localization of breast lesions shown only on MRI—a review for the UK study of MRI screening for breast cancer (Review article), 123
MRI of the claustrophobic patient: interventionally configured magnets, 146
Upright dynamic MR defaecating proctography in an open configuration MR system, 152
MRI screening for acoustic neuroma: a comparison of fast spin echo and contrast enhanced imaging in 1233 patients, 242
Distribution of cranial MRI abnormalities in patients with symptomatic and subclinical CADASIL, 256
Incidence and significance of demonstrating the meniscofemoral ligament on MRI, 271
MRI of congenital coronary artery aneurysm (Case report), 322
MR findings of ovarian tumours with cystic components (Pictorial review), 333
Dynamic susceptibility contrast enhanced MRI in reversible posterior leukoencephalopathy syndrome associated with haemolytic uraemic syndrome (Case report), 438
Parametric mapping of scaled fitting error in dynamic susceptibility contrast enhanced MR perfusion imaging, 470
Sedation, safety and MRI (Commentary), 575
Pitfalls of breast MRI (Pictorial review), 665
MRI appearances of bladder endometriosis, 733
MR findings of subarachnoid dissemination of a pituitary adenoma (Case report), 783
MRI of the breast (Review article), 806
Comparison of cardiac stroke volume measurement determined using stereological analysis of breath-hold cine MRI and phase contrast velocity mapping, 825
Intrafracture fluid: a new diagnostic sign of insufficiency fractures of the sacrum and ilium (Case report), 895
MRI of retroperitoneal collections: a comparison with CT (Pictorial review), 907
Malignant stromal tumour of the rectum: findings at endorectal ultrasound and MRI (Case report), 1010
MR appearances of the locked knee (Pictorial review), 1120
MRI screening for acoustic neuroma (Correspondence), 1129
MRI with mangafodipir trisodium in the detection of pancreatic tumours: comparison with helical CT, 1165
CT assessment of tumour response to treatment: comparison of linear, cross-sectional and volumetric measures of tumour size, 1178
Proton magnetic resonance spectroscopy and morphometry of the hippocampus in chronic fatigue syndrome (Short communication), 1206
Evaluation of a technique for estimation of extraocular muscle volume using 2D MRI, 1282
Sacculation of the uterus and placenta accreta—MRI appearances (Case report), 1323

CT

Paediatric sedation for CT scanning: the safety and efficacy of quinalbarbitone in a district general hospital setting, 7
Characteristics of small lung cancers invisible on conventional chest radiography and detected by population based screening using spiral CT, 137
Atypical presentation of pleural tuberculosis: CT findings (Case report), 209
Asymmetrical hemithorax volume loss due to Wegener's granulomatosis, 266
Tension pneumocephalus and pneumorachis secondary to subarachnoid pleural fistula (Case report), 325
Do bullae indicate a predisposition to recurrent pneumothorax? 356
Paediatric sedation using quinalbarbitone (Correspondence), 454
CT findings in post-operative subphrenic abscess with teratomatous inclusions (Case report), 542
Acute radiation-induced hepatic injury: evaluation by triphasic contrast enhanced helical CT (Case report), 544
Acute appendicitis with intestinal non-rotation presenting with partial small bowel obstruction diagnosed on CT (Case report), 557

The characteristics and significance of thoracic lymphadenopathy in parapneumonic effusion and empyema, 583
Spiral CT optimization for measurement of bronchial lumen diameter using an experimental model, 715
CT diagnosis of malpositioned chest tubes (Pictorial review), 786
The differing needs of the oncology and general radiology patient (Correspondence), 794
Value of spiral CT in patients with cricothyroid approximation, 840
MRI of retroperitoneal collections: a comparison with CT (Pictorial review), 907
Rapidly growing small peripheral lung cancers detected by screening CT: correlation between radiological appearance and pathological features, 930
Impact of motion artefact on the measurement of coronary calcium score, 956
CT diagnosis of acute appendicitis in a femoral hernia (Case report), 1013
Vertigo after stapes surgery: the role of high resolution CT (Pictorial review), 1021
Increased hepatic arterial blood flow after decreased portal supply to the liver parenchyma owing to intrahepatic portosystemic venous shunt: angiographic demonstration using helical CT, 1042
The influence of clinical information on the reporting of CT by radiologists, 1052
Morphological study of the femur in osteopetrotic (op/op) mice using microcomputed tomography, 1078
CT criteria for venous invasion in patients with pancreatic head carcinoma, 1159
Paraffin oil bezoar impacted in the small bowel: CT findings (Case report), 1213
Neurofibromatosis associated with a coronary artery aneurysm (Case report), 1219
Growth rate of small lung cancers detected on mass CT screening, 1252
Non-tumorous enhancement caused by cholecystic venous inflow shown on biphasic CT hepatic arteriography: comparison with hepatocellular carcinoma, 1275
CT and DSA appearances of a ruptured congenital arteriovenous malformation of the posterior mediastinal aorta (Case report), 1320

Interventional radiology

Intraosseous venous drainage anomaly of the tibia treated with imaging-guided sclerotherapy (Case report), 80
Radiation risk estimation in varicocele embolization, 293
Cutting needle biopsy in the diagnosis of clinically suspected non-carcinomatous disease of the lung, 349
Massive rise in thyroglobulin with adult respiratory distress syndrome after embolisation of thyroid cancer metastasis (Case report), 547
In vivo degradation of tungsten embolisation coils, 601
The curved needle technique for accessing the L5/S1 disc space (Short communication), 655
Absorbed dose and deterministic effects to patients from interventional neuroradiology, 745
Percutaneous ethanol injection of the supplying artery to hepatocellular carcinoma that is not amenable to conventional treatment, 833
The value of plain radiographs in the prediction of outcome in pelvic fractures treated with embolisation therapy, 945
Recurrent superior vena caval obstruction due to invasion by malignant thymoma: treatment using a stent graft (Case report), 1015
Evaluation of combined therapy with chemoembolization and irradiation for large hepatocellular carcinoma, 1091
Massive intrathoracic haemorrhage after CT-guided lung biopsy (Case report), 1105
Superselective embolisation for intractable idiopathic epistaxis, 1148
Treatment of a false aneurysm of an intercostal artery using a covered intracoronary stent-graft and a radial artery puncture (Case report), 1317

Angiography

Renal angiography using carbon dioxide, 3
Systemic and regional haemodynamic effects of aortofemoral angiography, 588
The aetiology of non-tumorous enhancement in the hepatic hilum shown on CT hepatic arteriography, 727
A comparison of bolus chasing and static digital subtraction arteriography in peripheral vascular disease, 819
Fatal lipid embolism following intraarterial angiography at an early stage of arteriosclerosis (Case report), 1108
Angiographic features associated with antiphospholipid syndrome (Case report), 1215
The vascular manifestations of Behçet's disease: angiographic and CT findings, 1270
CT and DSA appearances of a ruptured congenital arteriovenous malformation of the posterior mediastinal aorta (Case report), 1320

Nuclear medicine

False positive thallium-201 SPECT imaging in brain abscess, 160
Intravenous extension of lung carcinoma to the left atrium: demonstration by positron emission tomography with CT correlation (Case report), 206
The diabetic foot (Pictorial review), 443
The impact of FDG positron emission tomography imaging on the management of lymphomas, 482
Radionuclide bone imaging for detection of mandibular invasion by squamous cell carcinoma, 488
False positive ^{131}I whole body scans in thyroid cancer, 627
Extensive soft tissue uptake of $^{99}Tc^{m}$ methylene diphosphonate in a patient with multiple myeloma (Case report), 1018
Liver involvement in hereditary haemorrhagic telangiectasia: assessment with $^{99}Tc^{m}$-phytate radionuclide angiography and ^{123}I-IMP transrectal portal scintigraphy (Case report), 1115
Upper retropharyngeal node involvement in differentiated thyroid carcinoma demonstrated by ^{131}I scintigraphy, 1260

Paediatric radiology

Paediatric sedation for CT scanning: the safety and efficacy of quinalbarbitone in a district general hospital setting, 7
Computer assisted analysis of the chest radiograph lung area and prediction of failure of extubation from mechanical ventilation in preterm neonates, 156
The chest radiograph appearances of very premature

infants at 36 weeks post-conceptual age, 366
Paediatric sedation using quinalbarbitone (Correspondence), 454
The radiological approach to precocious puberty (Pictorial review), 560
Acute appendicitis presenting with a testicular mass: ultrasound appearances (Case report), 780
A novel quality assurance method in a university teaching paediatric radiology department, 843
A study of the application of paediatric reference levels, 1083
Ultrasound features of the gall bladder in infants presenting with conjugated hyperbilirubinaemia, 1154
Ultrasonographic features of nephrocalcinosis in preterm neonates, 1185

Oncology

The impact of FDG positron emission tomography imaging on the management of lymphomas, 482
Radionuclide bone imaging for detection of mandibular invasion by squamous cell carcinoma, 488
Acute radiation-induced hepatic injury: evaluation by triphasic contrast enhanced helical CT (Case report), 544
False positive ^{131}I whole body scans in thyroid cancer, 627
Are current tumour response criteria relevant for the 21st century? (Commentary), 1031

Breast

Differential bore sheath breast biopsy—a pilot study of a new technique, 10
Localization of breast lesions shown only on MRI—a review for the UK study of MRI screening for breast cancer (Review article), 123
Skin edge perception in mammograms: a comparison of two film–screen combinations, 370
A digital density equalization technique to improve visualization of breast periphery in mammography, 410
Pitfalls of breast MRI (Pictorial review), 665
Relationships between age, mammographic features and pathological tumour characteristics in non-palpable breast cancer, 698
Predictive value of galactographic patterns for benign and malignant neoplasms of the breast in patients with nipple discharge, 706
MRI of the breast (Review article), 806
Is the appearance of microcalcifications on mammography useful in predicting histological grade of malignancy in ductal cancer *in situ*? 938
Role of high magnification specimen radiography in surgical and core biopsies of the breast, 1170
Metastasis to the male breast from carcinoma of the urinary bladder (Case report), 1326

Genitourinary tract

General urinary tract

The radiological appearances of tuberous sclerosis (Pictorial review), 91
Retroperitoneal fibrosis: typical and atypical manifestations (Pictorial review), 214
MRI appearances of bladder endometriosis, 733
Kaposi's sarcoma involving a transplanted kidney, ureter and urinary bladder: ultrasound and CT findings (Case report), 1221

Paediatric urinary tract

Ultrasonographic features of nephrocalcinosis in preterm neonates, 1185

Gynaecology

Struma ovarii: MRI findings (Case report), 87
HyCoSy—as good as claimed? 133
MR findings of ovarian tumours with cystic components (Pictorial review), 333
Benign metastasizing leiomyoma with intracaval leiomyomatosis (Case report), 435
CT findings in post-operative subphrenic abscess with teratomatous inclusions (Case report), 542
MRI appearances of bladder endometriosis, 733

Obstetrics

Congenital diaphragmatic herniation: antenatal detection and outcome, 360
Adynamic ileus after Caesarean section mimicking intestinal obstruction: findings on abdominal radiographs, 951
Sacculation of the uterus and placenta accreta—MRI appearances (Case report), 1323

Male genital system

The incidence and significance of testicular microlithiasis in a subfertile population, 494

Central nervous system

The radiological appearances of tuberous sclerosis (Pictorial review), 91
False positive thallium-201 SPECT imaging in brain abscess, 160
MRI screening for acoustic neuroma: a comparison of fast spin echo and contrast enhanced imaging in 1233 patients, 242
Distribution of cranial MRI abnormalities in patients with symptomatic and subclinical CADASIL, 256
Tension pneumocephalus and pneumorachis secondary to subarachnoid pleural fistula (Case report), 325
Dynamic susceptibility contrast enhanced MRI in reversible posterior leukoencephalopathy syndrome associated with haemolytic uraemic syndrome (Case report), 438
Parametric mapping of scaled fitting error in dynamic susceptibility contrast enhanced MR perfusion imaging, 470
MRI screening for acoustic neuroma (Correspondence), 1129
Proton magnetic resonance spectroscopy and morphometry of the hippocampus in chronic fatigue syndrome (Short communication), 1206
Intracranial dural empyema (Pictorial review), 1329

Head and neck

MR findings of subarachnoid dissemination of a pituitary adenoma (Case report), 783

Orbits

The value of intubation dacryocystography after dacryocystorhinostomy, 604
The usefulness of orbital lines in detecting blow-out fracture on plain radiography, 1265
Evaluation of a technique for estimation of extraocular muscle volume using 2D MRI, 1282

Dental

Radionuclide bone imaging for detection of mandibular invasion by squamous cell carcinoma, 488

Ear, nose and throat

Value of spiral CT in patients with cricothyroid approximation, 840
Osteoma of the thyroid cartilage—an unusual cause of difficult intubation (Case report), 899
Vertigo after stapes surgery: the role of high resolution CT (Pictorial review), 1021
Superselective embolisation for intractable idiopathic epistaxis, 1148

Respiratory tract

Intrathoracic extension of aggressive fibromatoses (Short communication), 66
Pseudomembranous necrotizing bronchial aspergillosis (Case report), 73
Characteristics of small lung cancers invisible on conventional chest radiography and detected by population based screening using spiral CT, 137
Computer assisted analysis of the chest radiograph lung area and prediction of failure of extubation from mechanical ventilation in preterm neonates, 156
Intravenous extension of lung carcinoma to the left atrium: demonstration by positron emission tomography with CT correlation (Case report), 206
Atypical presentation of pleural tuberculosis: CT findings (Case report), 209
Asymmetrical hemithorax volume loss due to Wegener's granulomatosis, 266
Cutting needle biopsy in the diagnosis of clinically suspected non-carcinomatous disease of the lung, 349
Do bullae indicate a predisposition to recurrent pneumothorax? 356
The chest radiograph appearances of very premature infants at 36 weeks post-conceptual age, 366
Massive rise in thyroglobulin with adult respiratory distress syndrome after embolisation of thyroid cancer metastasis (Case report), 547
The characteristics and significance of thoracic lymphadenopathy in parapneumonic effusion and empyema, 583
Spiral CT optimization for measurement of bronchial lumen diameter using an experimental model, 715
CT diagnosis of malpositioned chest tubes (Pictorial review), 786
Rapidly growing small peripheral lung cancers detected by screening CT: correlation between radiological appearance and pathological features, 930
Digital selenium radiography: anti-scatter grid for chest radiography in a clinical study, 963
Massive intrathoracic haemorrhage after CT-guided lung biopsy (Case report), 1105
Pulmonary vasculitis: the spectrum of radiological findings (Pictorial review), 1224
Cutting needle biopsy in the diagnosis of clinically suspected non-carcinomatous disease of the lung (Correspondence), 1235
Growth rate of small lung cancers detected on mass CT screening, 1252

Cardiovascular system

Acquired heart disease

Thrombosis of mechanical heart valve prostheses: revisiting the role of fluoroscopy (Case report), 76
Acquired anomalous intrapulmonary venous connection secondary to pulmonary venous stenosis (Case report), 211
Comparison of cardiac stroke volume measurement determined using stereological analysis of breath-hold cine MRI and phase contrast velocity mapping, 825
Impact of motion artefact on the measurement of coronary calcium score, 956
Fatal haemorrhagic myocarditis secondary to cyclophosphamide therapy (Case report), 1112

Congenital heart disease

MRI of congenital coronary artery aneurysm (Case report), 322
Neurofibromatosis associated with a coronary artery aneurysm (Case report), 1219

Great vessels

Benign metastasizing leiomyoma with intracaval leiomyomatosis (Case report), 435
The vascular manifestations of Behçet's disease: angiographic and CT findings, 1270
CT and DSA appearances of a ruptured congenital arteriovenous malformation of the posterior mediastinal aorta (Case report), 1320

Peripheral arterial system

Renal angiography using carbon dioxide, 3
Granularity of the carotid artery intima–medial layer: reproducibility of quantification by a computer-based program, 595
In vivo degradation of tungsten embolisation coils, 601
A comparison of bolus chasing and static digital subtraction arteriography in peripheral vascular disease, 819
The value of plain radiographs in the prediction of outcome in pelvic fractures treated with embolisation therapy, 945
Fatal lipid embolism following intraarterial angiography at an early stage of arteriosclerosis (Case report), 1108
Angiographic features associated with antiphospholipid syndrome (Case report), 1215
The vascular manifestations of Behçet's disease: angiographic and CT findings, 1270
Treatment of a false aneurysm of an intercostal artery using a covered intracoronary stent-graft and a radial artery puncture (Case report), 1317

Peripheral venous system

Intraosseous venous drainage anomaly of the tibia treated with imaging-guided sclerotherapy (Case report), 80
The vascular manifestations of Behçet's disease: angiographic and CT findings, 1270

Lymphatic system

The impact of FDG positron emission tomography imaging on the management of lymphomas, 482

Skeletal

Congenital

Morphological study of the femur in osteopetrotic (op/op) mice using microcomputed tomography, 1078

Trauma

Incidence and significance of demonstrating the meniscofemoral ligament on MRI, 271

Radiography for midfacial trauma: is a single OM 15° radiograph as sensitive as OM 15° and OM 30° combined? (Short communication), 883

Intrafracture fluid: a new diagnostic sign of insufficiency fractures of the sacrum and ilium (Case report), 895

Tumour

Radionuclide bone imaging for detection of mandibular invasion by squamous cell carcinoma, 488

Improving radiographer highlighting of trauma films in the Accident and Emergency department with a short course of study—an evaluation, 608

Extensive soft tissue uptake of $^{99}Tc^{m}$ methylene diphosphonate in a patient with multiple myeloma (Case report), 1018

Infection

The diabetic foot (Pictorial review), 443

Spine

Tension pneumocephalus and pneumorachis secondary to subarachnoid pleural fistula (Case report), 325

The curved needle technique for accessing the L5/S1 disc space (Short communication), 655

Radiation doses to patients undergoing scoliosis radiography, 847

The influence of different technique factors on image quality of lumbar spine radiographs as evaluated by established CEC image criteria, 1192

Joints

Incidence and significance of demonstrating the meniscofemoral ligament on MRI, 271

Intraosseous pneumatocyst of the scapula (Case report), 658

MR appearances of the locked knee (Pictorial review), 1120

Bone densitometry

Differential effects of menopause and metabolic disease on trabecular and cortical bone assessed by peripheral quantitative computed tomography (pQCT), 14

Issues of threshold selection when determining the fractal dimension in HRCT slices of lumbar vertebrae (Short communication), 69

Quantitative ultrasound or clinical risk factors—which best identifies women at risk of osteoporosis? 165

Peripheral quantitative CT of the forearm: scanner cross-calibration using patient data, 275

Mandibular bone mineral density measured using dual-energy X-ray absorptiometry: relationship to hip bone mineral density and quantitative ultrasound at calcaneus and hand phalanges, 288

Effect of Paget's disease of bone on areal lumbar spine bone mineral density measured by DXA, and density of cortical and trabecular bone measured by quantitative CT, 720

Hip axis length in an Italian osteoporotic population, 969

The influence of different technique factors on image quality of lumbar spine radiographs as evaluated by established CEC image criteria, 1192

Digestive system

Patient dose from barium procedures, 752

Small intestine

Crohn's disease of aphthous type: serial changes in intestinal lesions, 1046

Paraffin oil bezoar impacted in the small bowel: CT findings (Case report), 1213

Colon and rectum

Upright dynamic MR defaecating proctography in an open configuration MR system, 152

Ultrasound diagnosis of oesophagostomiasis (Case report), 328

Acute appendicitis with intestinal non-rotation presenting with partial small bowel obstruction diagnosed on CT (Case report), 557

Acute appendicitis presenting with a testicular mass: ultrasound appearances (Case report), 780

Adynamic ileus after Caesarean section mimicking intestinal obstruction: findings on abdominal radiographs, 951

Malignant stromal tumour of the rectum: findings at endorectal ultrasound and MRI (Case report), 1010

CT diagnosis of acute appendicitis in a femoral hernia (Case report), 1013

Crohn's disease of aphthous type: serial changes in intestinal lesions, 1046

Fluid collections detected by ultrasound following uncomplicated colorectal surgery (Short communication), 1098

Biliary

Ultrasound features of the gall bladder in infants presenting with conjugated hyperbilirubinaemia, 1154

Liver

Imaging liver metastases: current limitations and future prospects (Review article), 234

Acute radiation-induced hepatic injury: evaluation by triphasic contrast enhanced helical CT (Case report), 544

The aetiology of non-tumorous enhancement in the hepatic hilum shown on CT hepatic arteriography, 727

Percutaneous ethanol injection of the supplying artery to hepatocellular carcinoma that is not amenable to conventional treatment, 833

Increased hepatic arterial blood flow after decreased portal supply to the liver parenchyma owing to intrahepatic portosystemic venous shunt: angiographic demonstration using helical CT, 1042

Liver involvement in hereditary haemorrhagic telangiectasia: assessment with $^{99}Tc^{m}$-phytate radionuclide angiography and ^{123}I-IMP transrectal portal scintigraphy (Case report), 1115

Non-tumorous enhancement caused by cholecystic venous inflow shown on biphasic CT hepatic arteriography: comparison with hepatocellular carcinoma, 1275

Pancreas

Pancreatic serous cystadenoma associated with islet cell tumour (Case report), 83

CT criteria for venous invasion in patients with pancreatic head carcinoma, 1159

MRI with mangafodipir trisodium in the detection of pancreatic tumours: comparison with helical CT, 1165

Soft tissues

Intrathoracic extension of aggressive fibromatoses (Short communication), 66

Retroperitoneal fibrosis: typical and atypical manifestations (Pictorial review), 214

MRI of retroperitoneal collections: a comparison with CT (Pictorial review), 907

Endocrine system

Thyroid

Upper retropharyngeal node involvement in differentiated thyroid carcinoma demonstrated by ^{131}I scintigraphy, 1260

Adrenals

The radiological approach to precocious puberty (Pictorial review), 560

Mediastinum

Recurrent superior vena caval obstruction due to invasion by malignant thymoma: treatment using a stent graft (Case report), 1015

Contrast media

Haemostatic effects of low osmolar non-ionic and ionic contrast media: a double-blind comparative study, 248

Injection of contrast media in intravenous cannulation using a power infusion device (Correspondence), 340

Systemic and regional haemodynamic effects of aortofemoral angiography, 588

Gadolinium-DTPA as X-ray contrast medium in clinical studies (Short communication), 878

Effects of radiographic contrast media on proliferation and apoptosis of human vascular endothelial cells, 1034

MRI with mangafodipir trisodium in the detection of pancreatic tumours: comparison with helical CT, 1165

Endothelin: what does the radiologist need to know? (Review article), 1246

Clinical audit and management

MRI of the claustrophobic patient: interventionally configured magnets, 146

Sedation, safety and MRI (Commentary), 575

Ethical issues in teleradiology (Review article), 578

The differing needs of the oncology and general radiology patient (Correspondence), 794

A novel quality assurance method in a university teaching paediatric radiology department, 843

Communication of doubt and certainty in radiological reports (Short communication), 999

The influence of clinical information on the reporting of CT by radiologists, 1052

PHYSICS AND TECHNOLOGY

Diagnostic radiology physics

Conventional

Skin sparing in interventional radiology: the effect of copper filtration, 36

Awareness by radiology staff of the difference in radiation risk from two opposing lateral lumbar spine examinations (Correspondence), 568

CT

Application of draft European Commission reference levels to a regional CT dose survey, 43

Quality criteria implementation for brain and lumbar spine CT examinations, 384

Effects of titanium prosthesis, offset and size of field of view on bone mineral density measurements using quantitative computed tomography, 498

Impact of motion artefact on the measurement of coronary calcium score, 956

CT assessment of tumour response to treatment: comparison of linear, cross-sectional and volumetric measures of tumour size, 1178

Dental

Measurement of dose in panoramic dental radiology (Short communication), 1002

Mammography

Radiation doses received in the UK Breast Screening Programme in 1997 and 1998, 278

Skin edge perception in mammograms: a comparison of two film–screen combinations, 370

A digital density equalization technique to improve visualization of breast periphery in mammography, 410

A comparison of fixed and variable kVp technique protocols for film–screen mammography, 613

Influence of anode/filter material and tube potential on contrast, signal-to-noise ratio and average absorbed dose in mammography: a Monte Carlo study, 1056

Image quality and dose in film-screen magnification mammography, 1068

Role of high magnification specimen radiography in surgical and core biopsies of the breast, 1170

Image processing/perception/quality/image analysis

Quality criteria implementation for brain and lumbar spine CT examinations, 384

A digital density equalization technique to improve visualization of breast periphery in mammography, 410

The benefit of stereology for quantitative radiology (Review article), 679

Comparison of cardiac stroke volume measurement determined using stereological analysis of breath-hold cine MRI and phase contrast velocity mapping, 825

Digital selenium radiography: anti-scatter grid for chest radiography in a clinical study, 963

Image quality and dose in film-screen magnification mammography, 1068

The influence of different technique factors on image quality of lumbar spine radiographs as evaluated by established CEC image criteria, 1192

QA/protection

Art for art sake, but is it legal? (Correspondence), 672
Workshop on medical X-ray imaging: potential impact of new EC directive (Commentary), 799
A novel quality assurance method in a university teaching paediatric radiology department, 843
GSM cell phones can interfere with ionizing radiation dose monitoring equipment (Short communication), 994

Dose calculation/measurement/instrumentation

Skin sparing in interventional radiology: the effect of copper filtration, 36
Application of draft European Commission reference levels to a regional CT dose survey, 43
Effective doses to patients from paediatric cardiac catheterization, 172
Factors affecting patient radiation exposure during routine coronary angiography in a tertiary referral centre, 184
Radiation doses received in the UK Breast Screening Programme in 1997 and 1998, 278
Radiation risk estimation in varicocele embolization, 293
Reference dose levels for patients undergoing common diagnostic X-ray examinations in Irish hospitals, 396
Correlation of patient skin doses in cardiac interventional radiology with dose-area product, 504
"Anode heel effect" on patient dose in lumbar spine radiography, 531
Awareness by radiology staff of the difference in radiation risk from two opposing lateral lumbar spine examinations (Correspondence), 568
Experimental determination of practical peak voltage, 641
Dose-area product measurements in a range of common orthopaedic procedures and their possible use in establishing local diagnostic reference levels, 740
Absorbed dose and deterministic effects to patients from interventional neuroradiology, 745
Patient dose from barium procedures, 752
Radiation doses to patients undergoing scoliosis radiography, 847
Image quality and dose in film-screen magnification mammography, 1068
A study of the application of paediatric reference levels, 1083
The influence of different technique factors on image quality of lumbar spine radiographs as evaluated by established CEC image criteria, 1192
Effect of a full and empty bladder on radiation dose to the uterus, ovaries and bladder from lumbar spine CT and X-ray examinations, 1290
Evaluation of physical performance of a scintillation dosemeter for patient dosimetry in diagnostic radiology, 1297

Bone densitometry

Comparison of an imaging heel quantitative ultrasound device (DTU-one) with densitometric and ultrasonic measurements, 23
Comparison of bone mineral density and quantitative ultrasound of the calcaneus: site-matched correlation and discrimination of axial BMD status, 31
Quantitative ultrasound or clinical risk factors—which best identifies women at risk of osteoporosis? 165
Peripheral quantitative CT of the forearm: scanner cross-calibration using patient data, 275
Mandibular bone mineral density measured using dual-energy X-ray absorptiometry: relationship to hip bone mineral density and quantitative ultrasound at calcaneus and hand phalanges, 288
Effects of titanium prosthesis, offset and size of field of view on bone mineral density measurements using quantitative computed tomography, 498

Detectors

The long-term performance of DXA bone densitometers, 737
Digital selenium radiography: anti-scatter grid for chest radiography in a clinical study, 963

Radiotherapy physics

Photon therapy

An isocentrically mounted stand for total body irradiation (Short commu ication), 776
Accurate measurement of exposure rate from a ^{60}Co teletherapy source: deviations from the inverse-square law, 867

Brachytherapy

Calibration of pre-cut iridium-192 wires for low dose rate interstitial brachytherapy using a Farmer-type ionization chamber, 201
Bilateral radical radiotherapy in a patient with uterus didelphys (Case report), 553
Vaginal vault brachytherapy: the effect of varying bladder volumes on normal tissue dosimetry, 864

Heavy particle therapy/equipment

Proton beam radiotherapy (Commentary), 802

Equipment/linear accelerators

A collision prevention software tool for complex three-dimensional isocentric set-ups (Short communication), 537
X-ray leakage during radiotherapy (Correspondence), 793
Planning a radiotherapy centre (Commentary), 1135
Regarding X-ray leakage during radiotherapy (Correspondence), 1339

Conformal therapy/multileaf/portal imaging

Dosimetric properties of the Theraview™ fluoroscopic electronic portal imaging device, 517
X-ray leakage during radiotherapy (Correspondence), 793
Some limitations in the practical delivery of intensity modulated radiation therapy, 854
Regarding X-ray leakage during radiotherapy (Correspondence), 1339

Radiotherapy imaging/simulation

A filter for breast imaging on a radiotherapy X-ray simulator (Short communication), 886
CT assessment of tumour response to treatment: comparison of linear, cross-sectional and volumetric measures of tumour size, 1178

Radionuclide therapy

Radiation protection consequences of the care of a terminally ill patient having received a thyroid ablation dose of ^{131}I-sodium iodide (Short communication), 1209

Treatment planning/dose computation

MRI—"Magic radiotherapy imaging" for treatment planning? (Commentary), 229

Dose calculations for asymmetric fields defined by independent collimators using symmetric field data, 403

The need for the moving junction in craniospinal irradiation, 650

Dose equivalents of tumour repopulation during radiotherapy: the potential for confusion (Short communication), 892

How should breathing motion be combined with other errors when drawing margins around clinical target volumes? 973

Breast radiotherapy phantom design for the START trial (Short communication), 1313

QA/protection

GSM cell phones can interfere with ionizing radiation dose monitoring equipment (Short communication), 994

Radiation protection consequences of the care of a terminally ill patient having received a thyroid ablation dose of ^{131}I-sodium iodide (Short communication), 1209

Dose measurement/calibration/instrumentation

Dose response characteristics and basic dose distribution data for a polymerization-based dosemeter gel evaluated using MR, 58

Calibration of pre-cut iridium-192 wires for low dose rate interstitial brachytherapy using a Farmer-type ionization chamber, 201

A therapy beam training aid (Short communication), 314

Investigation of dose homogeneity in paediatric anthropomorphic phantoms for a simple total body irradiation technique (Short communication), 317

Direct measurement of air kerma rate in air from CDCS J-type caesium-137 therapy sources using a Farmer ionization chamber (Short communication), 425

Dosimetric properties of the Theraview™ fluoroscopic electronic portal imaging device, 517

Bilateral radical radiotherapy in a patient with uterus didelphys (Case report), 553

Some limitations in the practical delivery of intensity modulated radiation therapy, 854

Accurate measurement of exposure rate from a ^{60}Co teletherapy source: deviations from the inverse-square law, 867

Radiation dosimetry using polymer gels: methods and applications (Review article), 919

Directionality of extruded lithium fluoride thermoluminescent dosemeters in a cobalt-60 beam (Short communication), 1007

Nuclear medicine

QA/protection

Workshop on medical X-ray imaging: potential impact of new EC directive (Commentary), 799

Radiation protection consequences of the care of a terminally ill patient having received a thyroid ablation dose of ^{131}I-sodium iodide (Short communication), 1209

Ultrasound

Instrumentation/QA

Comparison of an imaging heel quantitative ultrasound device (DTU-one) with densitometric and ultrasonic measurements, 23

Comparison of bone mineral density and quantitative ultrasound of the calcaneus: site-matched correlation and discrimination of axial BMD status, 31

Advances in ultrasound: from microscanning to telerobotics (Review article), 1138

Methods of measurement of image quality in teleultrasound, 1306

Non-ionizing radiation

Radiofrequency

GSM cell phones can interfere with ionizing radiation dose monitoring equipment (Short communication), 994

Magnetic resonance

Instrumentation/imaging

Dose response characteristics and basic dose distribution data for a polymerization-based dosemeter gel evaluated using MR, 58

MRI—"Magic radiotherapy imaging" for treatment planning? (Commentary), 229

Evaluation of a technique for estimation of extraocular muscle volume using 2D MRI, 1282

QA/protection

MRI safety limits: is MRI safe or not? (Commentary), 1

Infants exposed to MRI *in utero* have a normal paediatric assessment at 9 months of age, 190

Quality assurance for MRI: practical experience, 376

Spectroscopy

Magnetic resonance spectroscopy in the evaluation of neurotoxicity following cranial irradiation for childhood cancer (Short communication), 421

Proton magnetic resonance spectroscopy and morphometry of the hippocampus in chronic fatigue syndrome (Short communication), 1206

RADIOTHERAPY AND ONCOLOGY

Clinical systems

Head and neck

External beam radiotherapy in exudative age-related macular degeneration: a pooled analysis of Phase I data, 305

The need for the moving junction in craniospinal irradiation, 650

Proton beam radiotherapy (Commentary), 802

Skin

Radiotherapy or surgery in perianal Paget's disease? (Correspondence), 340

Gynaecology

Bilateral radical radiotherapy in a patient with uterus didelphys (Case report), 553

Vaginal vault brachytherapy: the effect of varying bladder volumes on normal tissue dosimetry, 864

An audit of outcome of adjuvant post-operative radiotherapy for 52 women with stage II carcinoma of the endometrium, 987

Radiotherapy for vaginal carcinoma: a 23-year review, 1200

Genitourinary

Metastasis to the male breast from carcinoma of the urinary bladder (Case report), 1326

Gastrointestinal

Perianal mucinous carcinoma successfully treated with a combination of external beam radiotherapy and high dose rate interstitial brachytherapy (Case report), 661

Evaluation of combined therapy with chemoembolization and irradiation for large hepatocellular carcinoma, 1091

Breast

Conservative surgery and radiation therapy for early stage breast cancer after previous mantle radiation for Hodgkin's disease (Case report), 905

Metastasis to the male breast from carcinoma of the urinary bladder (Case report), 1326

Paediatric tumours

Magnetic resonance spectroscopy in the evaluation of neurotoxicity following cranial irradiation for childhood cancer (Short communication), 421

Thyroid

False positive ^{131}I whole body scans in thyroid cancer, 627

Upper retropharyngeal node involvement in differentiated thyroid carcinoma demonstrated by ^{131}I scintigraphy, 1260

Others

Metastatic paraganglioma causing spinal cord compression (Case report), 901

Benign conditions

Radiotherapy for benign diseases (Commentary), 121

Clinical radiotherapy

External beam

Radiotherapy for benign diseases (Commentary), 121

External beam radiotherapy in exudative age-related macular degeneration: a pooled analysis of Phase I data, 305

Radiotherapy or surgery in perianal Paget's disease? (Correspondence), 340

Bilateral radical radiotherapy in a patient with uterus didelphys (Case report), 553

Perianal mucinous carcinoma successfully treated with a combination of external beam radiotherapy and high dose rate interstitial brachytherapy (Case report), 661

Conservative surgery and radiation therapy for early stage breast cancer after previous mantle radiation for Hodgkin's disease (Case report), 905

An audit of outcome of adjuvant post-operative radiotherapy for 52 women with stage II carcinoma of the endometrium, 987

Radiotherapy for vaginal carcinoma: a 23-year review, 1200

Conformal therapy/dose escalation

Intensity modulated radiation therapy: a clinical review (Review article), 459

Conformal radiation therapy for hepatoma with portal vein thrombosis (Case report), 550

Total body irradiation

Investigation of dose homogeneity in paediatric anthropomorphic phantoms for a simple total body irradiation technique (Short communication), 317

An isocentrically mounted stand for total body irradiation (Short commu ication), 776

Brachytherapy

Bilateral radical radiotherapy in a patient with uterus didelphys (Case report), 553

Perianal mucinous carcinoma successfully treated with a combination of external beam radiotherapy and high dose rate interstitial brachytherapy (Case report), 661

Vaginal vault brachytherapy: the effect of varying bladder volumes on normal tissue dosimetry, 864

An audit of outcome of adjuvant post-operative radiotherapy for 52 women with stage II carcinoma of the endometrium, 987

Radiotherapy for vaginal carcinoma: a 23-year review, 1200

Isotope therapy

False positive ^{131}I whole body scans in thyroid cancer, 627

Radiation protection consequences of the care of a terminally ill patient having received a thyroid ablation dose of ^{131}I-sodium iodide (Short communication), 1209

Altered fractionation

Dose equivalents of tumour repopulation during radiotherapy: the potential for confusion (Short communication), 892

Palliative radiotherapy

A pilot study to assess the feasibility of prior scalp cooling with palliative whole brain radiotherapy, 514

Metastatic paraganglioma causing spinal cord compression (Case report), 901

Particle therapy
Changed delivery of boron to tumours using electroporation for boron neutron capture therapy with BSH, 195

Toxicity and symptom management
Comments on the British Institute of Radiology Working Party advice for patients after radionuclide therapy (Correspondence), 453

Others
CT assessment of tumour response to treatment: comparison of linear, cross-sectional and volumetric measures of tumour size, 1178

Chemotherapy
Fatal haemorrhagic myocarditis secondary to cyclophosphamide therapy (Case report), 1112

Radiosensitization
Gas exchange parameters in radiotherapy patients during breathing of 2%, 3.5% and 5% carbogen gas mixtures (Short communication), 1100

Combined chemoradiation
Evaluation of combined therapy with chemoembolization and irradiation for large hepatocellular carcinoma, 1091

Prevention
Education
Comments on the British Institute of Radiology Working Party advice for patients after radionuclide therapy (Correspondence), 453

Environmental risk
Comments on the British Institute of Radiology Working Party advice for patients after radionuclide therapy (Correspondence), 453

RADIOBIOLOGY

Basic radiation/chemical interactions
Disappearance of stress-induced hyperthermia following a low dose of X-irradiation: involvement of the vomeronasal system in the modulation of the radiation-induced effects, 51

Effects of radiation quality
Studies in vitro
Boron neutron capture therapy of the rat 9L gliosarcoma: evaluation of the effects of shark cartilage (Short communication), 429

Biological basis of radiological protection
In utero effects
Infants exposed to MRI *in utero* have a normal paediatric assessment at 9 months of age, 190

Risk estimates
Thyroid dosimetry in Europe following the Chernobyl accident, 636

Radiobiology as applied to radiotherapy
Normal tissue toxicity
Single dose irradiation response of pig skin: a comparison of brachytherapy using a single, high dose rate iridium-192 stepping source with 200 kV X-rays, 762
Effects of Lipochromin and Levosinum in the modulation of radiation-induced injury to pig skin, 771

Early tissue effects
Single dose irradiation response of pig skin: a comparison of brachytherapy using a single, high dose rate iridium-192 stepping source with 200 kV X-rays, 762
Effects of Lipochromin and Levosinum in the modulation of radiation-induced injury to pig skin, 771

Late tissue effects
Single dose irradiation response of pig skin: a comparison of brachytherapy using a single, high dose rate iridium-192 stepping source with 200 kV X-rays, 762
Effects of Lipochromin and Levosinum in the modulation of radiation-induced injury to pig skin, 771

Sensitizers
Boron neutron capture therapy of the rat 9L gliosarcoma: evaluation of the effects of shark cartilage (Short communication), 429
Gas exchange parameters in radiotherapy patients during breathing of 2%, 3.5% and 5% carbogen gas mixtures (Short communication), 1100

Protectors
Acute mild hypothermia caused by a low dose of X-irradiation induces a protective effect against mid-lethal doses of X-rays, and a low level concentration of ozone may act as a radiomimetic, 298
Effects of Lipochromin and Levosinum in the modulation of radiation-induced injury to pig skin, 771

Oxygen effect
Acute mild hypothermia caused by a low dose of X-irradiation induces a protective effect against mid-lethal doses of X-rays, and a low level concentration of ozone may act as a radiomimetic, 298
Change in oxygenation status in intratumour total and quiescent cells following γ-ray irradiation, tirapazamine administration, cisplatin injection and bleomycin treatment, 978

Novel and combined treatment modalities
Radiation/chemotherapy
Change in oxygenation status in intratumour total and quiescent cells following γ-ray irradiation, tirapazamine administration, cisplatin injection and bleomycin treatment, 978

Others

Changed delivery of boron to tumours using electroporation for boron neutron capture therapy with BSH, 195

EDUCATION

An inspiring case (Case of the month), 99
Bilateral neck masses (Case of the month), 223
